

Adult Speech & Language Therapy

Kathleen McGrath, M.S. CCC-SLP · Licensed in the USA (ASHA) & Ireland (CORU). A complete continuum of adult therapy services — every plan tailored to measurable, meaningful goals.

01 Swallowing

Comprehensive Swallow Evaluation

Clinical bedside assessment with referral pathways for instrumental study.

Dysphagia Therapy

Targeted exercises, diet modification and compensatory strategies.

Mealtime Coaching

Caregiver and family training for safe oral intake at home.

02 Motor Speech

Dysarthria Treatment

Improving speech intelligibility, breath support and articulation.

Apraxia of Speech Therapy

Programmes to rebuild motor planning for speech production.

SPEAK OUT!®

Evidence-based voice treatment for Parkinson's disease (Parkinson Voice Project) — speaking with intent.

03 Language & Cognition

Aphasia Therapy

Restoring expressive and receptive language after stroke or brain injury.

Cognitive-Communication Therapy

Memory, attention, problem-solving and executive function support.

Reading & Writing Rehabilitation

Functional literacy goals for return to work, study and daily life.

04 Voice & Resonance

Voice Therapy

Behavioural treatment for vocal quality, pitch and stamina.

Vocal Hygiene Counseling

Lifestyle and behavioural strategies to protect the voice long-term.

Accent & Communication Coaching

Clarity, confidence and presence-based communication training.

Telehealth available across both jurisdictions via Zoom for Healthcare (BAA-covered). To enquire: neurocompainers@gmail.com
